2027 丁未

the Fire Goat

Nine Purple takes the centre of the annual chart for the first time in the ninth age. The chart below is the same for everybody; where your own directions fall against it is not.

THE 2027 ANNUAL CHART · NORTH AT THE TOP

1 一白 ONE WHITE north west	**5** 五黄 FIVE YELLOW north	**3** 三碧 THREE JADE north east
2 二黑 TWO BLACK west	**9** 九紫 NINE PURPLE centre	**7** 七赤 SEVEN RED east
6 六白 SIX WHITE south west	**4** 四绿 FOUR GREEN south	**8** 八白 EIGHT WHITE south east

One White · Two Black · Three Jade · Four Green · Five Yellow · Six White · Seven Red · Eight White · Nine Purple — the nine digits appear once each, and the star in the centre is fixed by the year alone.

THREE CONSECUTIVE DAYS TURN THE YEAR

4 Feb
立春
start of spring
09:46 Beijing

5 Feb
除夕
New Year's Eve
last day of the year

6 Feb
春节
Chinese New Year
first day of 丁未

For the four pillars the year turns at 立春. For the festival it turns on 6 February. Inside that gap the two calendars disagree about which animal a newborn belongs to — thirty-eight hours and fourteen minutes wide.
